

MEETING REPORT

Team Name: AC Supply Chain AI **Date of Meeting:** 07 April 2025

Start Time: 10:00 **End Time:** 11:30 **Meeting Location:** Faculty Computer Lab, Room 204

Moderator: Enisa Halilaj **Recorder:** Natali Muca

Other Members Present: Enisa Halilaj, Natali Muca, Sabina Merkaj,
Alesia Palloshi, Alesia Gjeta

Members Absent: None

Topics Discussed:

- Introduction and overview of the project brief: AI-powered supply chain management system for American Computers Albania.
- Discussion of system requirements: demand forecasting, anomaly detection, inventory management, and supplier tracking.
- Review and agreement on technology stack: FastAPI, PostgreSQL, scikit-learn, HTML/JS + Chart.js.
- Division of responsibilities among team members based on skills and availability.
- Setting up the GitHub repository and agreeing on branching strategy (feature branches, PR reviews).
- Discussion of project timeline and submission deadlines.

Decisions Made:

- Tech stack confirmed: FastAPI, PostgreSQL, scikit-learn, HTML/JS, Chart.js.
- Roles assigned: Enisa - team leader & repo; Natali - backend & auth; Sabina - database & models; Alesia P. - frontend & testing; Alesia G. - ML & ETL.
- GitHub repository created at <https://github.com/h-enisa/ac-supply-chain-ai.git> — Enisa is repo master.
- Weekly meetings every Monday at 10:00 in the Faculty Computer Lab.
- All code must be pushed via feature branches; no direct pushes to main.

Tasks Assigned:

- Set up GitHub repo, branch protections, and README skeleton — Enisa Halilaj (due: 10 Apr)
- Scaffold FastAPI project structure and JWT authentication endpoints — Natali Muca (due: 13 Apr)
- Design PostgreSQL schema: Supplier, Product, Order, AnomalyLog, DemandRecord, User — Sabina Merkaj (due: 13 Apr)
- Create wireframes for dashboard, inventory, and forecast pages — Alesia Palloshi (due: 13 Apr)
- Research ARIMA demand forecasting and identify suitable scikit-learn pipeline — Alesia Gjeta (due: 13 Apr)

Time, Place, and Agenda for Next Meeting:

- Monday, 14 April 2025 at 10:00 — Faculty Computer Lab, Room 204. Agenda: Review completed scaffolding; walkthrough of DB schema; demo of auth endpoints; discussion of seed data strategy.
