

MEETING REPORT

Team Name: AC Supply Chain AI **Date of Meeting:** 29 May 2026

Start Time: 13:00 **End Time:** 15:00 **Meeting Location:** Online — Microsoft Teams

Moderator: Enisa Halilaj **Recorder:** Natali Muca

Other Members Present: Sabina Merkaj, Alesia Palloshi, Alesia Gjeta

Members Absent: None — all 5 members attended

Topics Discussed:

1. Final review and integration testing of all feature branches
2. QA testing results — UI bug fixes reported by Alesia Palloshi
3. ARIMA forecasting model — retraining with updated seed data and accuracy evaluation
4. JWT authentication — token refresh edge cases and endpoint hardening
5. Database — additional seed records and final schema validation by Sabina Merkaj
6. README finalization, GitHub wiki completion, and repo cleanup
7. Demo walkthrough rehearsal — live system run-through across all 12 UI pages
8. Personal wiki log format confirmed and final submission deadline reviewed
9. Decisions Made:

- Enisa Halilaj will perform the final merge of all feature branches into main after individual review
- Each member must push their completed personal wiki log before the final submission deadline
- Alesia Gjeta's ARIMA model retrained with updated seed data and approved for final build
- customer.html and index.html declared feature-complete following QA sign-off by Alesia Palloshi
- Sabina Merkaj to add three additional seed records to improve ML training data coverage
- Project demo will follow the live system walkthrough format covering all major features

Tasks Assigned:

Enisa Halilaj — Final branch merge, repo cleanup, README and GitHub wiki finalization (inventory.py, router.py)

Natali Muca — JWT token refresh logic, auth endpoint tests, personal wiki log (auth.py, router.py)

Sabina Merkaj — Additional seed data records, final schema validation, personal wiki log (models.py, seed_db.py)

Alesia Gjeta — ARIMA retraining, anomaly detection review, ML endpoint final tests (ml.py)

Alesia Palloshi — Final UI polish, cross-browser QA sign-off, demo preparation (index.html, customer.html)
