

# MEETING REPORT

**Team Name:** AC Supply Chain AI **Date of Meeting:** 4 June 2026

**Start Time:** 14:00 **End Time:** 17:00 **Meeting Location:** University Library

**Moderator:** Enisa Halilaj **Recorder:** Natali Muca

**Other Members Present:** Sabina Merkaj, Alesia Palloshi, Alesia Gjeta

**Members Absent:** None — all 5 members attended

## Topics Discussed:

1. Final project submission checklist — review of all deliverables and grading rubric
2. Full system demo run-through and live presentation rehearsal
3. Confirmation of final branch merge and repo status — main branch verified clean
4. Documentation review — README, GitHub wiki, meeting reports, and personal logs
5. Division of presentation responsibilities — each member assigned their demo section
6. Q&A preparation — anticipated faculty questions discussed and answers prepared
7. Final personal wiki logs — all members confirmed completion and push to repository
8. Decisions Made:

- All code finalized — no further commits to main branch permitted after final merge
- Each member will present their own module during the live demo
- Enisa Halilaj to submit the final GitHub repository link for grading
- All personal wiki logs confirmed complete and pushed to the repository
- Project declared complete and ready for final submission

## Tasks Assigned:

**Enisa Halilaj** — Final repo submission, present system architecture and project overview (inventory.py, router.py)

**Natali Muca** — Present authentication module and backend API endpoints during live demo (auth.py, router.py)

**Sabina Merkaj** — Present database schema, models, and seed data during live demo (models.py, seed\_db.py)

**Alesia Gjeta** — Present ML models, ARIMA forecasting, and anomaly detection during live demo (ml.py)

**Alesia Palloshi** — Lead the full UI walkthrough across all 12 pages during demo (index.html, customer.html)
